The Nugget Is California's Leading Mining Weekly

Nevada City Nugget

VOLUME V, NUMBER 29 THE GOLD CENTER NEVADA CITY, NEVADA COUNTY, CALIFORNIA THE COUNTY SEAT PAPER FRIDAY, JULY 3, 1931

BOUNDARY MINE SHOWS UP GOOD

The original Grass Valley Boundary Mines Company have taken over the Boundary Mine near the center of Grass Valley and are doing considerable development work. M. J. Brock is president of the company.

Two shifts are at work atthe present time sinking a shaft. A good showing of free gold has been encountered in the foot wall which is dipping towards the main ledge.

There is a new ten stamp mill on the property and a new seven drill air compressor. The hoist has been rebuilt and it is in first class condition. Development work is being rushed as rapidly as possible.

0

MRS KIMBALL RETURNS FROM MINING PROPERTY

Mrs. Kitty Kimball returned to Nevada City Thursday after spending several weeks at her mining properties Reliance Placer and Quartz in the Alleghany and Eureka Districts. While there she supervised the completion of the assessment work on the five claims incorporated under one head. She saw the completion of a building and the building of trails on the property.

The men are now working on a 55 foot gravel tunnel which will eventually connect with a 175 foot tunnel on the quartz ledge. The gravel in the tunnel is running exceedingly high. From ten to fifteen fair sized colors show up in each pan.

Mrs. Kimball was accompanied by her son-in-law and daughter, Mr. and Mrs. Adolph Hagist, and their small son. The party was enroute to their home in Oakland.

0

MINING ASSOCIATION ELECTS MAC BOYLE PRES.

At a meeting of the directors of the Mining Association of California held last Saturday at Travelers Hotel in San Francisco Errol MacBoyle, president of the Idaho Maryland Mines Company was unanimously elected president of the Association. Lee Rowland of Mariposa Chapter was elected first vice president.

A committee was appointed to revise the by-laws for the Association to allow for the election of an executive board who can quickly handle matters of importance without calling the entire board of Directors many of whim must come from a considerable distance to attend the meeting.

A great need for a publication was expressed by all present.

Negotiations are under way to secure an organizer who will put full time in the field securing members and proper support for the Association so as to place it on a firm financial basis.

0

SCADDEN COMPLETES 200 FOOT TUNNEL

Thomas Scadden of North Columbia was a Nevada City visitor this week. He now has a tunnel in his Oak Flat property 200 feet long. He expects to hole through to the channel within the next few weeks.

He formerly had a tunnel 140 feet but found he was too high so he abandoned it and drove the new tunnel lower down. The tunnel has been driven thru hard rock and Mr. Scaddn has been doing all the work alone.

He has also just completed $500 worth of assessment work on five claims belonging to the Grizzly Ridge Mining Company, Inc. The work was done on the Outlet, Mazuma, Grey Eagle, Polar Bear and Little Bear.

Incidentally Mr. Scadden is one of The Nugget's good friends and subscribes and besides paying his subscription for the coming year to The Nugget paid for his subscription to the new California Mining Journal thereby becoming one of the first subscribers.

George Erway has also done his assessment work on his Risk claim. There is a forty foot shaft and he is now working on the tunnel which is in 60 feet.

GASTON MINE WILL START OPERATIONS

The Gaston mine, located in the Washington mining district, will soon start operations. .The prperty is completely equipped. There is a ten stamp mill on the property at the present time but future plans call for the installation of a flotation plant if the production warrants. The property was sold to George St. Johns of Berkeley a year and a half ago by Fred Cassidy of Nevada City and Claude Ferguson.

Up to January of 1929 the surface workings were all rehabilitated , the tunnel cleaned out and retimbered the main tunnel which is 4700 feet long. A 1500 foot tramway was built, saw mill installed, the Gaston ditch reconditioned with 600 feet of flumes, over 2000 feet of 12 to 16 inch pipe placed in position for generating water power. They have a 1600 cubic foot compressor driven by a Pelton wheel using water under a 1172 foot head. A 70 ton mill is on the property.

Two Lyner machines were used in driving an east cross cut and north drift. The east cross cut was in granodiorite and it was thought in 1929 that the downward extension of the Gambrinus vein would shortly be encountered. This vein which has been a big producer of good ore in th past, was workd within 700 feet of the present lower level. The north drift was being driven on the contact between granodiorite and slate, known as the main Gaston vein.

A water right goes with this property which is an important item at this time.

This property was worked by the Rescue Eula, a Nevada mining company, a couple of years ago. Lack of water or electricity for running machinery closed the property at that time, we understand. This section now has electricity, it being brought in by the P. G. & E. Co. from the north or Alleghany district

0

HIGGINS RANCH TO BE HYDRAULICKED

D. L. Powers and W. L. Richards have taken a contract to hydraulic the old Higgins ranch on Goodyear creek near Goodyears Bar in iSerra county.

The men have been working for the past six weeks preparing the property for the operations and are now ready for the monitor which is to be installed. Operations willl actively start as soon as this is done; 400 feet of pipe has been laid with a 140 foot drop.

The old Higgins Ranch is a historic spot. In the old days it was a pack train station and the ranch was left untouched to raise feed for the pack train, altho the ground all around it was washed for the gold

Goodyear Creek was one of the richest in the district and has a record production of $3,000,000 for three miles along the creek.

The owner Mr. Higgins passed away last winter and the property now belongs to his widow and children, who live in Portland, Oregon.

0

ROUGH AND READY MINES ARE SHOWING ACTIVITY

The Rough and Ready mining district is also experiencing a mining revival. Not only have a lot of new locations been made, but a large number are doing assessment work with filings up to last Tuesday showing the following proofs of labr and development work:

Olympus and S. Olympus quartz by Chas. F. Folck et al; Sumner and Alta quartz, by South Star Gold Mines Company; Bath Consolidated quartz mining claims, Golden Eagle No. 1 and 2, Rame Windron, Henry Ford, Cragynos Fraction and Bath by Thomas Bath; Osceola, Osceola North Ext., Osceola South Ext., Aurora Borealis, Shibboleth, Live Oak, Mos Agate, Yellow Pointer, and Florence, by Osceola Consolidated Mines Company; Option quartz, by C. R. Checchetini.

This district has ledges of good ore but is noted for the rich pockets of gold found in the re.

0

Mr. and Mrs. J. C. Day and children of Modesto spent the week-end at Mr. Day's brother, S. M. Day.

CALIFORNIA MINING JOURNAL IS TO BE PUBLISHED SHORTLY

Within the next few weeks another publication will come to light in Nevada City. It will be called the California Mining Journal and will be published by the Nevada City Nugget Publishing Company. As the name indicates it will be devoted to the mining industry of the state and last Saturday at the meeting of the directors of the Mining Association of California it received the sanction of that body and will be the official publication of that organization.

The first issue will be a special edition of Nevada and Sierra Counties and material is now being prepared by well known mining engineers which will make the first issue a widely sought one.

It was at first the thought of The Nugget publishers to publish another special number of The Nugget as the last special is about exhausted and there is a steady demand. However, upon interviewing mining machinery men they urged that a monthly magazine be published in the interest of the industry of the state as a whole. There is a wide demand for such a publication. The Mining Association has long desired to have a publication of some sort in which they could keep their members in touch with the head office and with the happenings of each other, but had not been able to reach a proper method in which to finance the publication.

In awarding The Nugget privilege of publishing the new magazine the directors felt it was only just as The Nugget has been the one paper of the state to boost the mining industry and both of the publishers have been active members and offiers of the organization. Then too mining activity at the present time is centering around this locality.

The directors as a whole pledged their support to the new publication. The delegation from Oroville requested that the second issue be a Butte County special edition and were eager to assist.

There have recently been a number of movements to start a mining magazine of some sort so great was the need felt but they lacked the proper support and necessary backing. Two of these attempted publications have given up their idea entirely and have thrown their support to the California Mining Jounral. The Journal has already secured the services of a field representative who will spend his time touring the state securing advertising, subscriptions and news items.

The new publication already has a dozen paid in advance subscriptions. The subscription price to Nugget subscribers or members of the Mining Association of California will be one dollar payable in advance. The California Mining Journal will make its premier about the third week in July. Thousands of copies will be distributed throughout the east extolling the golden opportunities of California and of Nevada County in particular.

DAVE JANSON HAS GOOD ORE ON HIS PROPERTY

Mr. C. C. Bennetts was in The Nugget office Wednesday and stated that Dave Janson of Amador county has one of the prettiest little leads in quartz porphyry on his property in the Edwards Bridge section of Nevada county.

There are values in the gouge in the west wall. The sulphides are in the east wall. The formation is on a contact of granodiorite and slates. The assays run from about $2.48 to $18.45.

This property is above the South Yuba river and between the river and the Hoge mine. It is composed of one claim and adjoins Mr. Bennetts property on the north and the Kirkham property is to the south.

EMPRESS GOLD MINING COMPANY INCORPORATED

The Empress Gold Mining Company has been incorporated for operation of the Newtown mine under management of Mr. Ed Jacobs.

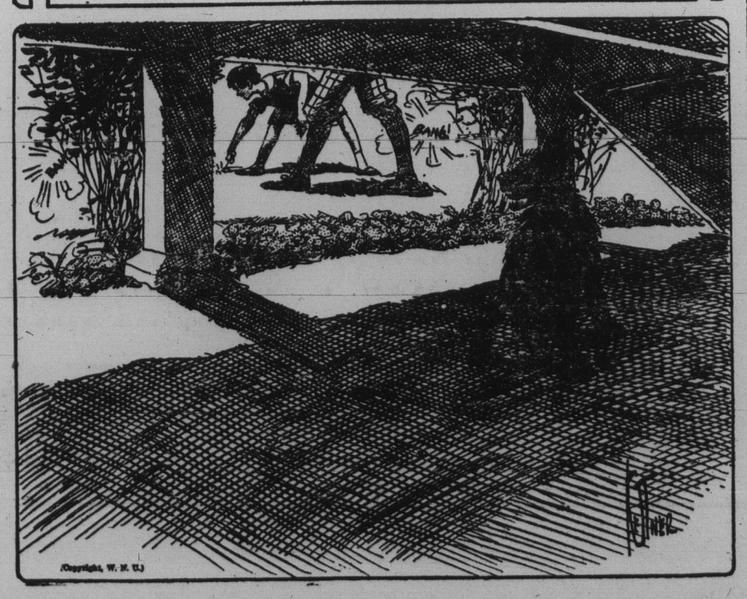
A crew of men are atwork on the property. Machinery is coming in to be installed and operations will soon be under way.

The old company developed the mine to a depth of 150 feet and exposed a considerable tonnage of ore, but the machinery at that time was not suitable to recover values in paying quantities.

0

Mr. C. C. Bennetts, a mine owner, was a Nevada City visitor Wednesday.

July the Fourth



CONG ENGLEBRIGHT IS POPULAR SPEAKER

Calls for our popular Congressman have come so thick and fast that he is able to accept only a small portion of the many invitations that are pouring in from all parts of the state.

Last week Congressman Englebright spent several busy days in Los Angeles where he was one of the principal speakers at the Sheriff's Relief Association Barbacus at Luna Park an annual event in the southern city. Over 30,000 people listened to talks by Congressmen Swing and Englebright and by Sheriff Bill Treggor who heads the largest sheriff' office in the world employing 1,500 deputies.

The theatres of Los Angeles donated their best acts for the occasion and after the formal speeches there was a continuous vaudeville performance.

Congressman Englebright was also a guest of the city officials of Los Angeles. They were vitally interested in our genial congressman because his district controls the water supply of Los Angeles.

He was also a luncheon guest of R. K. O. Studios in Hollywood. Adolph Menjou was called from location to act as host to the congressman. He was conducted thru the studio and witnessed the preview of several pictures. The movie people are espcially interested in copy-right legislation which is handled by the Patent Committee of which Congressman Englebright is a member. The committee is considering the revision of the copy right laws.

July 6th Congressman Englebright is to meet the Congressional Committee and conduct them thru

July 24th he is to be master of Ceremonies a the Lassen National Yosemite Park.
Park dedication.

He still has time to be a genial fellow citizen of Nevada City.

0

BUTLER INTERESTS BUY GOLDEN CENTER MINE

The Cooley Butler Interests have purchased the Golden Center mine from the Golden Center Mining Company. It took two years to complete negotiations for the property.

Plans are under way to unwater the mine and retimber the shaft, then additional sinking and crosscutting will be done to reach valuable ore bodies of the Butler interests north and west of the Grass Valley townsite. It is thought work will start in a few days.

The Golden Center mine has long been regarded as one of the best prospects and enables the new owners to make accessable their ground for operation.

The mine is completely equipped with surface machinery and mill which has been kept in excellent condition.

0

MINING PERSONALS

Mr. Griff L. Thomas formerly of Nevada City, and now of San Francisco, is spending his vacation in Downieville. At one time he had charge of several mines in this district among them being the Telegraph, Posey and Pushach.

John Saulsbury, who has spent several years in Arizona mining fields, and now resides in Los Anangeles, was a visitor in Nevada City.

L. L. Patrick and wife passed thru town Thursday enroute to Downieville. Mr. Patrick had the first mill in Gold Field, Nevada which was called Combination.

Thomas Scadden, who owns mining property near Columbia Hill was a business visitor in Nevada City during the week.

0

MINE NOTES OF INTEREST

Mr. James Grimes, mining man of experience, was talking of good ore in Nevada City district. He stated that gold was sold at $9 an ounce off the plates at the Mountaineer Mine. It's a good mine that sells gold off the plates at $6 an ounce.

In the state of Nevada mining men look for gold in porphyry. In California "gold is where you find it", in fact it is found in slate schist, granidorite, porphyry, etc.

GRASS VALLEY ALL SET FOR 4TH

A band concert by the Grass Valley Concert Band at Bret Harte Inn started off the week end of festivities which will continue until late Sunday afternoon.

The city is prettily decorated with bunting and flags and preparation is being made for the greatest influx of former residents and visitors in the Fourth of July history. It has been advertised by radio, pen letters and personal mail. Hotels will be crowded, the Memorial Park thrown open to campers and many homes will assist in caring for the visitors.

The following is the list of entries from Nevada City:

Decorated Car—Nevada City Councilmen.

"National Interpretation" — Hydraulic Parlor No. 56, N. S. G. W.

"Homes Among the Hills"—Chamber of Commerce.

"Nevada County Wild Life"—Ray Teale, Taxidermist.

"Prospector of Yesterdays"—Lawrence Calanan.

"Prospector of Today"—Milton Milton Masters.

"Preparing Breakfast" — Nevada City Nugget.

"Uncle Tom, Little Eva and Topsy" Mrs. Carl Tobiassen and Mrs. L. Marsh.

"Float"—Nevada City Fire Department.

"Christopher Columbus" — Court Cristo Colombo Lodge.

Decorated Car — Marshal W. Gieselman.

Float—"Kopp's Bakery Welcomes You"—Kopp's Bakery.

It is requested that all those participating in the Nevada City group to meet on Spring street so that they may go to Grass Valley together.

SUNDAY EVENTS

2:00 p. m. Watt Park. Grass Valley Braves vs. Richmond Elks.

Stores are carrying window displays of old relics.

0

WORK TO START SOON ON SUNRISE PROPERTY

Joseph Sergi, owner of the ranch property and a stockholder in the Sunrise Mining and Development Company states operations will start in about two weeks at the mine.

This property has been in litigation for about a year until Seattle interests bought out the Grass Valley mining men.

The mine has been operated to a depth of 400 Ofeet, the limit of the hoist, compressors and gasoline surface equipment. The company has applied for electricity in order to operate all machinery by power.

This machinery was to have been purchased to sink the shaft to 1000 feet when litigation started. The way is now cleared for immediate operation.

Some of the men interested are Chas. DeWhite, originator of the Sunrise Mining and Development Company; W. S. Washburn of Seattle, representative of Seattle interests and Joseph Sergi.

W. S. Washburn is superintendent and Fred Pinch is foreman at the property.

0

WORK ON BELEFONTAINE MINE NOW UNDER WAY

The Nevada County Mines Corporation was organized this week to take over the Bellefontaine mine which includes the Bellefontaine mine and mill and a number of adjacent mineral claims.

This is another one of the J. M. Hoff groups headed by A. Gordon Nicolson of Berkeley. It brings into the district some San Francisco capital.

A crew of men have been on the property opening up old workings. A rich ore shoot has been encountered. Further sampling is being conducted by Ed Uren, local mining engineer of prominence.

Another shipment of ore has gone to Selby's from the Constitution. The St. Louis mill will be operating in the next two weeks.

About 45 men are employed on the several properties including the Bellefontaine, Constitution, Cyane, Federal Loan, Le Compton and La Belle.

THE NEVADA CITY NUGGET

COZY CORNER

The fact that Nevada City was chosen by the Mining Association as the place in which to publish their monthly mining publication is due in a certain extent to the fact that Nevada City and Grass Valley districts is the livilest mining district in the state. The fact that the Nevada City Nugget is one of the best known weekly papers enjoying a wide circulation was also a contributing factor. The magazine idea was the dream of the late publisher and it is regrettable that he did not live to see it an accomplished fact.

* * *

Not only in mining is Nevada City coming to the front but as a summer resort section. Scores of families have had to be turned away this summer because there were no accomodations availabl for them. A Piedmont doctor was in The Nugget office this week end and stated that he was recommending his patients who were suffering from sinus trouble to come to this section but that there were not houses available in either town for them. This lack is being overcome by some of our farsighted residents who are building. Now is the time to build. Labor and materials are both lower than they have been in many years, and houses can be built very reasonably at this time.

* * *

It is good to see again the theatre lights on upper Broadway and it ausages well for the prosperity. The Nugget congratulates Manager Tamblyn and his associate, George Calanan upon their accomplishment. A theatre is an institution in a city and it is indeed a poor community which cannt support one.

* * *

President Hoover's moritorium idea is one of the cleverest strokes of politics which the wrld has witnessed in recent years. Not only is he gaining the admiration of the citizens of this great nation but the respect of all the leading nations of the world. Those, who a few short weeks ago had only criticism to offer, are now loudest in their praise of the nation's chief. There is no doubt that Hoover will the unanimous Republication nmination to succeed himself.

CAMPTONVILLE ITEMS

The Mt.Alta mine is going right along with their work. About 15 men are employed driving the tunnel further ahead and timbering. Mr. C. N. Chatfield is superintendent.

Mr. and Mrs. Pauly of Camptonville were Nevada City visitors Monday.

W. A. Stansbury of the Leader Garage of Camptonville was a Wednesday visitor.

Miss Lesta Joubert is visiting Mr. and Mrs Wm. B. Meek.

Mr. Fred J. Joubert and crew of men are working in his placer mine north of Camptonville.

Miss Pauly is visiting friends in Mohawk Valley.

Julius E. Pauly was a Marysville visitor Wednesday.

Mrs. F. S. Labadie made a business trip to Grass Valley and Nevada City Wednesday.

Four old prospectors are busily engaged prospecting for gold in the Camptonville district.

Preparations are going onfor the big benefit dance to be held on the 25th of July.

Earl Pauly is working in the store while Mr. Acton Cleveland is in Sacramento at the bedside of his little daughter, Geraldine who is very ill.

Mrs. Livingston, Mrs. Acton Cleveland and Mrs. Wynne motored to Lake Tahoe in Mrs. Livingston's car Thursday returning Friday eve of last week.

MINING OUTLOOK GOOD IN STATE OF NEVADA

Forth Worth mining investors have taken over the Palmetto group of 12 patented claims and 16 locations. Plans were to open July 1st with 50 men and before the end of six months the 250 ton flotatin mill will be in operation. This property is located at the south end of the Silver Peak Range.

The Warrior Gold mine, Joe Costa superintendent, is preparing to ship three cars of ore a month. The main ore shoot lost in faulting has been recovered. It is said the ore runs one ounce of gold to one ounce of silver.

The Gold Hill mill shipped three bars of bullion to the mint estimated value being $10,200 compared with $9,580.33 for the same period last month.

Matt Rose and Jess Roberts leased 160 acres of placer ground for $500,000. It was discovered about the time of the Scossa gold rush.

The Amargosa Mining Company has bonded claims to start development at once. Ore outcroppings showed promise of good gold values. This property is in Nye County.

Haskell Gold Mines Ltd., plan to install a washing plant with capacity of 150 cubic yards a day on their property in Barbers Canyon east of Imlay. The lease and bond controls 1000 acres estimated to contain 68,000,000 cubic yards of pay gravel. It is said gravel averages $1.75 a cubic yard. C. H. Haskell is president.

The Beatty Gold Mining and Milling Company, the new mining camp of Hollywood, nine miles south of Beatty, is installing a cmpressor. It is said 18 feet of ore has been encountered with no walls in sight. A crew of 16 men is employed. Fred W.. Kuenzel is president of the company.

The Con. Virginia was taken under bond and lease by Los Angeles oil men. Plans are to work in the lower levels where it is thuoght good ore values exist. This is a noted mine as it started the fortunes of Mackay, Fair, Flood, and O'Brien, all noted financiers.

TIGHT CONNECTIONS PREVENT GAS ESCAPE

In order to prevent the escape of poisonous carbon-monoxide gas the exhaust gaskets and cnnections should be kept tight at all times, cautions the Free Emergency Road Service of the CaliforniaS tate Automobile Association.

PERSONAL MENTION

Mrs. Rena Morgan, of Downieville was in Nevada City having some dental work done.

Mrs. Carroll Searls of New Rochelle, N. Y., is spending some time in Nevada City her former home.

You and I

By CHARLES S. KINNISON

SYMBOLS

Upon the couch, there sets a doll;
A ball and bat are in the hall,
And roller-skates are also there.
Our carpets show the marks of wear,
And sometimes show a track of mud—
And now and then I hear a thud
Of someone jumping up and down,
(At which I sometimes wear a frown.)

A table-cloth of snowy white
At morn, will spotted be at night.
And every night, I hear it said,
"Aw, I don't wanta go to bed!"
And when I growl at bills, I hear—
"And they'll get bigger every year."
And from these simple lines you'll see
That we have CHILDREN—yes, sir-ee!

SINKING GOING ON AT PATHFINDER MINE

Sutter Creek, Calif. July 2—After several months of preparations, including the erection of all necessary surface buildings and the installation of a full complement of machinery to insure fast work, sinking operations are in full swing at the Pathfinder property, three miles west of Jackson, being developed by the Russell-Kent Mining Corporation of Deleware, an incorporated partnership of five New York and Boston business men. The shaft is being broken six and a half by 17 feet or three-compartment size. It has attained a depth of about 75 feet and is being sent down at an average rate of six feet every 24 hours, thre shifts of minrs being employed. A depth of 1,200 feet is the objective of the new company, with the first level at the 300-foot point.

The Rhetto orebody, recently disclosed on the 300-foot level of the property of the Amador Star Mining Company, 12 miles north of Sutter Creek, is responding in pleasing fashion to development, so much so that the management, it is learned, has received numerous offers of purchase for its holdings. All have been declined. Thus for the orebody has been followed for a depth of 90 feet, in which distance it has widened from eight inches to its present full six feet. Assays have ranged from a few dollars to more than $1,700 a ton in gold. Taken as a whole, the orebody is of good milling grade, it is officially stated.

Franklin & Company, Los Angeles mining firm, has acquired under a sub-lease the northern half ,embracing 80 acres, of the Ballard Mine, four miles north of Plymouth, from John Ratto of Sutter Creek, who holds a lease and bond on the property. Plans call fo the inauguration of operations by the Los Angelenos on July 1. The property was a notable early day producer.

—0—

FRENCH CORRAL ITEMS

FRENCH CORRAL, July 2, Special to The Nugget—Sorry we took down the warming stove. Negligee today, and overcoats tomorrow, such variable weather, we are having. Now our delightful June month is at an end. Only four more days, and our nation's birthday—Our glorious Fourth of July.

Forest fires have broken out in our section, and for three days, Tuesday, Wednesday and Thursday, Deputy Fire Warden George Howe from Nevada City w dneighb and a crew of men from Nevada City were kept busy when a fire broke out in the Neilson & Clerkin ranches. They succeeded in getting it under control and keeping it so before great damage was done. At one time they feared the Neilson home was in danger.

Mr. and Mrs. T. F. Fogarty and sons, Clyde and Verne, made a trip from Marysville to Auburn, Monday night to meet Mrs. Fogarty's sister, Mrs. C. W. Perry, who came from Reno to attend the funeral of her late brother, John B. Moulton. The party reached French Corral Tuesday a. m., and from that place left for Alleghany where Mr. Moulton passed away, at the home of his daughter, Mrs. C. Johnson. From Corral they were accompanied by Mr. and Mrs. W. E. Moulton and daughter, Mrs. L. Dudley, and Mrs. K. Sullivan. The funeral service which was largely attended was held in the M. E. church in Forest City, Rev. Buckner officiating. Interment was made in the cemetery at that place ,beside his wife who passed away about six years ago. The profusion of floral pieces attested the loving sympathy of many friends.

Mr. and Mrs. E. May returned to their home in Birchville Tuesday after spending two weeks in Sacramento. They say, "Always glad to get back to the hills."

Mr. and Mrs. E. Chatty and little sons, Jack and Billy, and Mrs. Chatty's father, J. W. Culver, and Mr. E. Haddy, left for a visit with relatives at Drum power ouse Tuesday a. m. The party returned to French Corral Friday and left for their home in San Francisco Saturday a. m.

Mr. R. McNamara of Tyler made a trip to French Corral Friday evening. On his return he was accompanied by his wife, who had been visiting with relatives here during the week.

Mr. and Mrs. P. H. Flynn were Tuesday visitors from Nevada City.

R. W. Waterman real estate broker from Oroville had buisnses here Tuesday.

Roy Kirkwood of Alleghany visited his mother, Mrs. J. Kirkwood of this place, Tuesday and Wednesday.

F. Bender returned to French Corral Wednesday. Mr. Bender had been spending a few weeks in Sacramento.

Mr.and Mrs. Cook and children of Wyandotte were Wednesday visitors.

Columbia Parlor, No. 70 N. D. G. W. held a meeting at their lodge room Friday afternoon.

Mr. and Mrs. Jewett and children Donna and Gwynn, of Chico visited Mrs. R. Dalberg Friday. rMrs. Dalberg and Mrs. Jewett, nee Ethel Gwynn, were classmates at the Chico Business College.

Mr. J. H. Haslett and W. Browning made a trip to Marysville Wednesday. Mr. Browning's son, Lloyd, returned from that place with them.

C. Hoffman and son, Milton, spent Friday and Saturday at this place.

Clyde Bishop, son of N. B. Bishop of this place and his friend, John Jewet, have come to spend some time in French Corral.

J. Deeds of Spenceville and friends were campers here for a few days.

Mr.and Mrs. W. E. Moulton made a trip to Marysville Friday evening to take Mr. Moulton's sister, rMs. C. W. Perry, where she will vsiit her sister, Mrs. Thos. Fogarty of that place before returning to her home in Reno.

Mr. and Mrs. H. Osgood of Sterling and Mr. Osgood's mother Mrs. H. C. Clymo, and brothers, Frank and Harold, of Benecia and aunt Mrs. J. McCarthy of Los Angeles were visitors at the home of Mr and Mrs.dW. E. Moulton Saturday. All the party but Mrs. McCarthy returned to their homes Sunday. Mrs. McCarthy will remain for a visit with her sister, Mrs. W. E. Moulton.

Mrs. E. Sutherland and daughter, Barbara and Mrs. E. Schwartz made a trip to Cisco Saturday.

Rev. Fr. O'Rielly held service in Birchville Sunday. He was accompanied by Clement Organ of Nevada City.

Mr. and Mrs. H. Dunn and Mrs. Dunn's father, Mr. De Guire of Nevada City were Sunday visitors.

Mr. and Mrs. Clarence Haslett and two children and brother, Elmore Haslett, of Reno, visited their father, J. H. Haslett of this place Sunday.

Lloyd Haslett went to Marysville Monday where he has employment.

SPECIAL PLANS FOR HANDLING TRAFFIC

Acting to curb the annual slaughter of innocent people, officials of the California Highway Patrol announced today special plans for handling the heavy traffic over the holiday week-end of 3aturday and Sunday July 4th and 5th.

All available patrolmen and inspectors will be ordered out for day and night duty, since, in addition to the holiday traffic, three large automobile caravans will pass through the state.

Commenting upon the problem, E Raymond Cato, Superintendent of the Patrol said, "There are approximately 74,000 miles of paved and unpaved highways to be patrolled in whole or in part by some 400 patrolmen. To prevent accidents on these roads will require the cooperation of every motorist.

"Our statistics indicate that most accidents result from a few definite causes that are within the power of all drivers to control. One of the most important of these is 'speeding'. Thse motorists who insist upon driving at reckless and excessive speeds will be arrested."

The following ten "don'ts" have been listed by the Patrol to remind motorists that to drive safely and sanely is to live to enjoy our natinal holiday.

1. Don't attempt to overtake and pass another car on a curve.
2. Don't attempt to overtake and pass another car below the crest of a hill.
3. Don't attempt to overtake and pass another car when the space is s limited as to cause you to "cut in" on the car being passed.
4. Don't drive at a high rate of speed when the view is obstructed.
5. Don't fail to signal for intended turns and stops.
6. Don't speed up while being passed by another car.
7. Don't drive at such speed as to be unable to slow down or to stop to avoid an accident with any car or object within the range of vision
8. Don't follow another car too closely.
9. Don't overload the front seat. (The average car will not accomodate more than three adults without interfering with the safe operation of the vehicle.)
10. Don't fail to observe stop signs and signals.

Big Dailies Say "Mine Gold"

Two leading dailies of the Pacific —the Spokane Chronicle and the Seattle Star—published editorials this month, which practically advised their readers to finance legitimate gold-mining enterprises. Both papers drew the line sharply between purchases of treasury stock and speculations in issued shares.

The Chronicle remarked that gold discoveries have been the forerunners of civilization throughout the world. "Gold," it added, "is about the only thing today for which there is an unlimited demand."

The Star warned its readers to beware of stock manipulations engineered from Wall Street. Mining it said, is necessary to the progress of the West, but speculation is not.

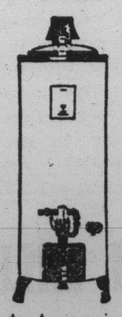
INSTANT hot water washes away your troubles ...quickly and easily

AT THIS TIME OF THE YEAR, you'll appreciate instant hot water more than ever. You can keep things sweet and fragrant easier because you do not wait for water to heat. The time you save can be spent in healthful summer recreation. Then too, there are no fires to build, no hot kitchen when you heat water automatically.

Automatic Gas Water Heater Needs No Attention

Once you have an automatic gas water heater you'll never do without it. The thermostat turns the gas on and off and keeps the water at 140 degrees day and night. Just turn a faucet and draw a tubful or a basinful of hot water—no delay or bother. The water stays hot because the boiler is insulated. No gas wasted.



An Automatic Gas Water Heater

As for cost, instant hot water is the cheapest of any method of heating water in the home. It amounts to less than one-fifth of a cent per gallon.

Why not stop in today and see the automatic gas water heaters? One may be purchased now for a small sum down and the balance in monthly payments.

Local dealers also sell Automatic Gas Water Heaters

MAKING PREPARATIONS FOR GROUND SLUICING

Jamestown, Calif., July 2—George McClatchy, Roy Paxton and J. M. McDonald, Los Angeles mining men, are making preparations for ground sluicing perations on an extensive scale on a tract of 240 acres of placer gold gravel land on Peoria Flat, six miles southwest of this town. A force of miners is erecting a short power line that will supply electricity for the work, which should be in progress within the next ten days, it is satted. Five 25-foot prospect shafts recently sunk, according to Mr. McClatchy, indicate average values of $1. a cubic yard from grass roots on 160 acres of the tract thus far explored.

W. G. Stegman of Oakland, and Harry Hale of Tuttletown have resumed, with a small force of miners the development of their Gold Flake property about a mile west of the latter town. They are repairing an 85-foot incline shaft on a vein which at that depth shows a width of 18 feet and assays from $1 to $20 a ton in gold, it is stated.

CROSSCUTTING ON STOCKTON MINE

Sonora, Calif, July 2— Crosscutting operations are being prosecuted to the east on the 160-foot level of the 175-foot vertical shaft on the Stockton mine, on the edge of this town, which is being operated by Ed McMahon, local mining man, in association with Chief Caupolican and Lewis Purdy, members of the Philadelphia Grand Opera Company. The extension of the new working, now out about 15 feet, is designated to intersect the downward continuation of an orebody which yielded $200,000 in high grode gold ore 40 years ago from the surface to a depth of 90 feet, it is stated. It is estimated that the objective will be reached within an additional 30 feet of crosscutting.

Ed Terzich and associates are sinking an incline shaft on the Sparkplug mine, two miles north of Sonora, to connect with an old tunnel and tributary workings which, it is stated, yielded numerous rich pockets of gold ore in the early days The shaft has gained a depth of 70 feet and it is figured 40 feet of additional work will be required to compite the task.

CITIZENS ASKED TO AID IN PREVENTING FIRES

Sacramento, July 2—Following the issuance of a proclamation by Governor Rolph calling on the citizens of California to prevent forest and grain fires during the coming dry season, E. Raymond Cato, Superintendent of the California Highway Patrol has instructed all members of the patrol to exercise special vigilance in apprehending violators of the law prohibiting the throwing of lighted cigars, cigarettes, matches and other glowing substances from moving motor vehicles.

Persons caught throwing such material from cars will be charged with a misdemeanor in accordance with the law, it was stated.

The officers were instructed to warn motorists who smoke to use ash receptacles for cigar and cigarette butts.

"Every effort must be made to prevent fires." Cato's order said.

Officers of the patorl were instructed to assist members of the United Frest Service and the state Division of Forestry in establishing lines of communication, directing traffic, etc., in areas where fires are buringin.

Attendants at border checking stations will instruct non-residents inthe law an d warn them of the danger of fire in forested areas and districts.

ANOTHER GOLD FIND MAY BE NEAR

Next to the American Revolution, perhaps the most important event in the history of this nation was the discovery of gold in California.

It brought the first great influx of population to the Pacific Coast, the first railway to span the continent. It decided that the Stars and Stripes, and not some other flag, would fly from San Diego to the Straits of Georgia.

Gold discoveries have been forerunners of civilization the world over. Another coming now would pour new monetary wealth into international trade. The most intensive search in 40 years is now under way for the yellow metal.

Gold is about the only thing today for which there is unlimited demand. Reduction of interest rates on savings deposits undoubtedly will take some idle money from the bank vaults and place it into gold-mining or gold-prospecting ventures.

The public should bear in mind that the only effective dollar is the one that will buy treasury stock. The search for gold is not aided by the purchase in the open market of gold-mining shares already issued. There is a great difference between financing the search for gold and speculating in gold-mining stocks.

Those with excess funds can well afford to finance legitimate efforts to produce more gold.—Spokane Chronicle

BOOKLET ON PLACER MINING

Calls so numerous for the Idaho Bureau of Mines bulliten on placer mining that a second edition must be issued immediately, are reported by Dr. John W. Finch, dean of mines University of Idaho at Moscow.

This suddenly popular bulletin, "Elementary Methods of Placer Mining," was written by Prof. W. W. Staley of the mines school faculty. Since early last fall the school of mines has been receiving calls from all parts of the country for information on placer mining, many of the inquiries are evidently from amateur miners about to set out for the hills in the search for gold. The bulletin was authorized by the bureau of mines and geology, primarily to set forth the desired information in a simple and condensed form to people inexperienced in mining.

The first edition was exhausted three weeks after it was announced The second edition is now on the press. The bulletin is 20 pages long, including five pages of drawings and diagrams. Professor Staley discnsses the geology of placer deposits; describes methods of panning gold, construction of rockers, sluices, and other simple equipment; amalgamation, and a breif survey of mining laws.

The popularity of the bulletin is a result of the widespread interest in gold mining, a condition brought about largely by the low prices of other metals, Dean French believes.

GOLD LOST IN FLOTATION

Microscopic study of the form in which gold was lost in flotation experiments on an oxidized ore from the Tintic District, Utah, was recently made in the course of cooperative work between the United States Bureau of Mines and the University of Utah.

The result of this study established the fact that the gold in the flotation tailing was present in the metallic form and that the greater portion of the gold particles lost were smaller than 200 mesh.

A comparison of the gold particles in the tailing with those recovered in the concentrate showed that the surfaces of the majority of the particles lost were tarnished a brown color, but those in the concentrate were relatively clean and bright.

Although the exact nature of the tarnish on the gold in the tailings was not conclusively determined, it was readily removed by hydrochloric acid. This, and other evidence, indicates that it is probably an iron salt.—Mining Truth.

LINEN TAPE BEST ON HIGH TENSION WIRING

Linen tape, rather than friction tape, should be used on high tension wiring, advises the Free Emergency Road Service of the California State Autombile Association. The tape should be treated with a coat of shellac to preventl eakage of current.

HEADLIGHT LENSES KEPT FROM TURNING

A simple plan to prevent headlight lenses from turning in the rim to to wrap a layer or two of friction tape on the edge before installing according to the Free Emergency Road Service of the California State Automobile Association. This will also eliminate rattling of the lens in the lamp.

EASY BIRD MINE IS AGAIN ACTIVE

San Andreas, Calif. July 2,—The Angels Consolidated Gold Mines, Ltd., controlled by Elmo Lincoln of Los Angeles, Todd B. Elliott, San Francisco mining engineer, and associates of Southern California, has taken the initial step toward the rehabilitation of the Angels and Sultana mines at Angels Camp, which thy recently acquired under leases and bonds. They have put a force of carpenters to work building a 60-foot headframe for erection over the 850-foot three-compartment vertical shaft on the Angels mine thru which the two properties, both famous gold producters and ilde since 1917, will be operated in the future. Other preliminary work is required and will be strated as rapidly as possible. Mr. Elliott states that by July 1 all such work will be under way and that thereafter the mine crew will be incrased as additional labor can be used.

After being idle for about 15 years the Easy Bird mine, on the Mokelumne River, one mile north of Mokelumne Hill, owned by the Pacific Gold Mining and Milling Company, of which Max Muller, Hermosillo, Mexico , banker, is the controlling factor, is again active. The property has been taken over under lease and bond and its development resumed by a syndicate of San Francisco business men represented by Todd B. Elliott, mining engineer A force of miners under John Casey as superintendent, is engaged in retimbering the 285-foot three-comparment vertical shaft. The property is equipped with a full complement of mining and milling machinery, including a 100-ton daily capacity ball mill and concentrating units. On the 100 and 200-foot levels a large shoot of ore, averaging 20 feet in width and assaying $9 a ton in gold is already assaying $9 a ton in stated.

PRODUCTION OF METALLIC CADMIUM IN 1930

The production of metallic cadmium in the United States in 1930 amounted to 2,777,762 pounds, valued at $1,777,768, as reported by producers to the United States Bureau of Mines, Department of Commerce. This is the largest annual production on recorl and is 12 per cent higher than the output of 2,481,427 pounds in 1929, the previous record, which was 32 per cent higher than production in 1928. Sales by domestic producers in 1930, however, amounted to only 1,664,644 pounds, 29 per cent lower than the sales of 2,330,617 pounds for 1929.

The average value reported by producers in 1930 was 64 cents a pound as compared with 81 cents a pound in 1929. Imports of cadmium dropped from 214,307 pounds, valued at $184,527, in 1929 to 40,105 pounds valued at $27,915, in 1930.

There were eight producers of metallic cadmium in 1930, the American Smelting & Refining Co., of Denver, Colo., Anaconda Copper Mining Co., Great Falls, Mont., Evans-Wallower Zinc Co., East St. Louis ,Ill., Harshaw Chemical Co., Grasseddi Chemical Co., Cleveland, Ohio, New Jersey Zinc Co., Palmerton, Mining Co., Midvale, Utah.

In addition to metallic cadmium, domestic manufacturers reported production of te following cadmium compounds in 1930: Cadmium sulphide, cadmium sulphate, cadmium hydrate, cadmium oxide, cadmium chlodire, cadmium carbonate, cadmium lithopone and cadmium selenide. The estimated cadmium content of cadmium compounds produced was 316,300 pounds, valued at $323,718, in 1930.

BADLY FITTED PISTON RINGS CAUSE TROUBLE

When the piston rings do not fit properly the perforamnce of the motor is directly affected, states the Free Emergencyo Road Service of the California State Automobile Association. Poorly fitting rings not only allow raw gasoline to leak into the crankcase, but on the suction mixture and causing the engine to miss fire or skip. The difficulty will be most apparent at idling speeds or when starting.

BIG GAME ANIMALS PASS MILLION MARK

Big game animals in the National Forests now number more than a million head. A gain of approximately 9 per cent in 12 months is months is shown by the annual wild game "census" of the Forest Service, United States Department of Agriculture, just announced.

The total big game population of 1,073,111 is an approximation of the number in the 151 national forests as of the first of this year, the figures being based partly on actual count. partly on estimates by experienced local forest officers.

This year's increase is chiefly in deer, but elk also have gained considerably. Moose, mountain sheep, mountain goats, and antelope, none of which is very numerous, show slight gains. Bear are keeping up the struggle for existence in fari numbers, although the great grizzly have ground in many of the forests and black and brown bears suffered in some localities.

Black and brown bears are still found over wide areas from coast to coast, over 50,000 f them living in the national forests. Virginia, California and Utah forests show decreases in bears. Small gains are reported from North Carolina, New Hampshire, West Virginia, New Mexico, Arizona and Alaska national forests.

The latest estimates showed deer present onevery one of the 151 national forests. Deer increased last year from 802,450, to 877,780 under State and Federal protection and hunting regulation in the national forests. Despite the many thousands of deer bagged by the hunters, most of the western forests showed gains. California now has 259,300 deer in its nineteen national forests; Arizona over 91,000, with a gain of 6,000; Colorado 36,380, with a gain of 3,000.

Big game hunters, naturalists and the nature-loving public may thank better protection, systematic control of predatory animals, and better range conditions for the preservation and improved status of the game, according to the Forest Service. Most of the increases have occurred on areas where only the remnants of larger herds were left a few years ago.

Increases in wild life thus far secured have not resulted in a material curtailment of domestic livestock on national forest ranges; through improved management the range is made more productive for both classes of animals.

WORK PROGRESSING ON THOS. BATH PROPERTY

Mr. Thomas Bath of Grass Valley owns the Bath Consolidated Mines in the Rough and Ready Mining District, which are composed of 6 claims.

He brought specimens of rock to The Nugget office Tuesday that he stated ground out 45 cents to a pound from the Golden Eagle claim No. 1. This rock is from a 20 foot shaft, with the ledge 5½ wide and widening as sinking progresses. Mr. Bath has heated the rock and then ground it in a mortar to obtain the gold. Five pounds produced $1.47.

Outcroppings of this ledge are shown in Golden Eagle No. 2 also. It is all base ore.

Mr. Bath stated that this ledge is the same as is in the Central mine of Grass Valley seven miles away. The Bath Consolidated mine is one half mile from the Newtown mine that is just reopening.

At another place where Mr. Bath is developing the property he has found a porphyry dyke 29feet wide and he states the ore runs fivedollars to the ton. The Bath tunnel No. 1 and Bath tunnel No. 2 run all the way from $7 to $20 a ton he stated.

Mr .Bath is developing this property alone and has done a lot of development work this season.

NEW GOLD ACTIVITY AROUND RANDSBURG

San Francisco, July 2—New gold mining activity in and around Randsburg has attracted the attention of local mining interests to that district.

Operator Consolidated Mining Company,w hich has been an active leader on the San Francisco Mining Exchange for the past month, has announced the purchase of the Bender mine which is adjacent to the Yellow Aster mine, one of the past big gold producers of the Randsburg regin.

George A. Browne of San Francisco, president of the company, has announced that the installation of the working force will speed up development work immediately.

The company is sinking on the main vein which produced $10,000 from the surface to a depth of 100 feet. The shaft has reached a depth of 140 feet and when the 200 foot level is reached a station will be cut and drifts extended to develop the vein on a large scale.

Gustav Bender, who is in charge of operations, reports that the face of the drift on the 100 foot level exposes a width of 1½ feet of $80go ld ore. As the shaft is going down on the vein, the ore taken from development is being treated in the company's own 20 ton milling plant.

DANCE HALL FINISHED IN RECORD TIME

The Twin City Dance Pavilion half war between Nevada City and Grass Valley is to be completed and ready for its opening dance on the night of July 3, one week from the day it was started.

The pavilion will have 6000 square feet of finest of maple flooring for dancing. There will be a dining hall and kitchen adjoining the dance floor where cafeteria suppers will be served from 11:30 on.

Fifteen carpenters have been employed to rush the work thru so as to be ready in time for the crowd expected here over the Fourth.

Ample parking space has been provided and will be covered with gravel and sand.

The Twin City Pavilin is under the management of Roy Mason. Lloyd Abbott and Malcolm who had the Oaks Pavilion below Grass Valley last year.

A special feature will be the Public Address System. A microphone will be placed in front of the orchestra stand and loud speakers will be placed in suitable position around the hall and one will be placed in front of the pavilion facing the road.

The opening dance is to be held tonight.

BUSINESS TRANSACTIONS OF INTEREST LOCALLY

J. F. Dolan bought te lot and improvements in Nevada City owned by Jesse McB. Grissel, which was sold at Tax Sale Monday morning.

Joe Moscatelli, well known resident of Nevada iCty, has purchased the property of S. M. Katzer on Long Street. It is planned to remodel it for an apartment house. This is one of the most attractive homes on Long Street.

Sheriff George R. .Carter has purchased at tax sale, a lot in the Donner Subdivision, assessed to L. H. Byron.

THOMAS A. MOYLE AND MISS ROSE YOUNG MARRIED

Miss Rose Young of Nevada City and Thomas A. Moyle of Grass Valley were married Sunday at the home of the bride in Nevada City.

The bride has been employed at Jones Memorial Hospital for the past two and a half years. She is of a pleasing disposition and has a wide circle of friends.

The groom is of Grass Valley and holds a position with the North Star Mines Company.

They are on a honeymoon and on their return will reside in Nevada City.

MR. AND MRS. CHARLES EDEN CELEBRATE ANNIVERSARY

A delightful reunion was held at Indian Flat when Mr. and Mrs. Charles Eden celebrated their thirty-third wedding anniversary. Many relatives and neighbors were present

A delicious dinner was served durin gthe afternoon at a prettily appointed table.

Tastefully decorated rooms added to the happiness of the affair.

ELDERLY MAN COMMITS SUICIDE AT FRENCH CORRAL

Christpher Bertheau aged about 77 years, and believed to be a native of Franch committeed suicide in French Corral early this week.

He had been in a despondent mood for several months because of lack of employment. A shotgun was used to blow the top of his head off, after other efforts failed.

Holmes Funeral Home has charge of the body, while an effort is being made to locate friends or relatives.

LOCATION NOTICES—Quartz and placer location notices for sale at The Nugget office at 5c each.

OPENING OF QUAIL SEASON IS CAHNGED

By Jerrold L. Seawell

This is the sixth of a series of articles of exploration of bills introduced by Asemblyman Seawell and passing both Houses of the Legislature.

Assembly Bill No. 414 is a bill that changes the opening of the quail season in this district: advancing the opening date to November fifteenth instead of December first as at present, and closing December fourteenth instead of thirty-first as at present.

The people in Nevada County and Eastern Placer County have complained that the present season is not for the best interest of the quail. Due to the fact, that the early snow fall traps the birds in clearings and they fall easy prey to the hunter.

It is felt by those interested that in advancing the season fifteen days would have a partial tendency to eliminate this condition. This bill was approved by the State Fish and Game Commission and has been signed by the Governor.

Assembly Bill No. 1384 is a bill that creates a game refuge near Pacific Grove for the purpose of preserving the sea life located there for scientific purposes and experiments to be carried on by the Universities of California and Stanford

Another bill which was incorporated in the General District Bill enlarges the present game reservation known as District S-1 located in Lassen County and will be advantageous to the preservation of the wild life in that County.

LOCAL HAPPENINGS

FOR SALE

52 acres in Lake Vera District adjoining Mills College land. Ideal for home sites or farm land. E. Goering. 1m

POPULAR OCTGENARIAN HAS BIRTHDAY WED.

Wm. Meservey, who has spent more than a half century in Nevada township, was receiving congratulations Wednesday on his having attained the age of 81 years. Mr. Meservey is sprightly and active. He looks many years younger than his age.

Perhaps the work out of doors for many years has kept him in such good health. He was employed by the old South Yuba Water Company for many years, and is one of the retired employees of the P. G. & E. Company.

The Nugget wishes to join with his many friends in wishing for him many more years of good health and happiness.

SMALL FIRE ON LONG STREET SOON UNDER CONTROL

A small grass fire on the old Giles lot on Long Street called out the Nevada City fire department Monday, just after noon. It was soon extinguished by the loca fire department.

Mrs. Leland Smith and children are home from a short vacation at the beach.

Tom Campbell mining man of Sierra City, was a Wednesday visitor in Nevada City.

LEGAL NOTICE

SUMMONS

NO. 5928

In the Superior Court of the State of California in and for the County of Nevada.

ANNA LUTHER, Plaintiff,
v.
JOHN JOHNSON; ELIZABETH E. TARR; also, all other persons unknown claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership ,or any cloud upon plaintiff's title thereto, Defendants.

Action to determine adverse claims to and clouds upon title to real property, brought in the Superior Court of the State of California in and for the County of Nevada, and the complaint filed in the office of the Clerk of said County of Nevada.

NILON, HENNESSY & KELLY, Attorneys for Plaintiff, Grass Valley, California.

THE PEOPLE OF THE STATE OF CALIFORNIA SEND GREETINGS TO:

JOHN JOHNSTON; ELIZABETH E. TARR; also, all other persons unknown claiming any right, title, estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto, Defendants.

YOU ARE HEREBY directed to appear, and answer to the complaint in an action entitled as above, brought against you in the Superior Court of the State of California in and for the County of Nevada, within ten days after the service on you of this summons—if served within this County,—or within thirty days if served elsewhere.

And you are hereby notified that unless you appear and answer as above required, the said plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract, or she will apply to the court for any other relief demanded in the complaint.

The following is a statement of the object of the action:

The object of the action is to determine all and every claim, estate, right, title, lien or interest in the property herein described; that the plaintiff is now, and has been, by herself and her predecessors in interest, the owner of and in the actual, exclusive and adverse possession of the property hereinafter described continuously for the period of more than twenty years immediately preceding the filing of the complaint in this action, claiming to own the same in fee against the whole world, and that plaintiff has, by herself and by her predecessors in interest, paid all taxes of every kind and nature whatever, levied or assessed against said real property during the period of five years continuously immediately preceding the filing of complaint aforesaid; that the claims or claim of said defen-

CAMPTONVILLE CHILD PASSES THURSDAY MORN

Geraldine, the eldest daughter of Mr. and Mrs. Acton M. Cleveland passed away Thursday morning shortly after 2 a. m. from ptomaine poisoning at the home of her grandparents, Mr. and Mrs. Earl Cleveland, in Sacramento.

The little six year old child was taken suddenly ill on Saturday of last week at the home of her grand parents with what was apparently ptomaine poisoning. The family physician was called and upon his advice two child specialists were brought into consultation and two trained nurses employed.

The distracted parents rushed to Sacramento arriving there about midnight Saturday and have been in constant attendance ever since.

The younger child Earline has also been ill, but is better.

It was thought at first that she was suffering from ptomaine poisoning, but it is now thought it was more a sympathetic illness.

Funeral services will be held Sunday afternoon at 3:30 in Camptonville.

Mr. and Mrs. Henry Huckins of North San Juan are grandparents, and Mr. and Mrs. W. B. Meek of Camptonville are great grandparents.

0

DEATH CALLS EAST COUNTY WOMAN

Mrs. Emma Anderson passed away last Friday at her Spencerville home after a lingering illness and was laid to rest on Monday in the family plot in Smartsville.

Emma Bitner was born in Iowa in 1867, but came to California with her parents as a little child. The family settled in Spencerville where her father was engaged in mining and there she spent the remainder of her days.

In 1904 she was married to August Anderson in Sacramento.

Although crippled since a little child she was remarkably cheerful. She had a great love for animals and her home was a refuge for homeless cats and dogs. Charitable in nature she endeared herself to her neighbors for many miles. The large gathering of friends, both at Holmes Funeral Home where services were held and at the grave, bespoke of the high esteem in which she was held.

Besides her husband she is survived by her sister, Mrs. Ella Austin, who has shown her sister every devotion during the long illness and by a niece, Mrs. Gorden Walker of New York and a nephew, B. C. Austin of San Francisco.

0

HARRY DAVIS PASSES AWAY WEDNESDAY

Harry Davis, well known resident of this city, passed away Wednesday morning at about 2 a. m. at his home on Pine street. Just before he passed from life he awoke his wife telling her that he had a severe pain in his heart. She rushed to the bath room for a glass of water and as she again reached him her husband fell dead in her arms.

As he appeared to be in the best of health for some time past his death came as a profound shock to his relatives, friends and neighbors.

He was married at Alleghany in 1915 to Miss Margaret Walsh of that place and to this union two sons, Everett and Raymond, were born, and with their mother survive to mourn the death of a loving husband and father.

Mr. Davis was born in Maine and at the time of his death was 54 years of age.

He was a member of Forest Lodge, No. 66, F. and A. M., at Alleghany.

The funeral will be held this afternoon at 2:30 o'clock from the Holmes Funeral Home. Mrs. Ida Magonigal of the local Christian Science Society will officiate at the services at the funeral home and the officers of Nevada Lodge will conduct the burial service.

0

ELIZABETH HARRY GOES TO HER REWARD

Mrs. Elizabeth Harry of Prospect Hill passed away Thursday morning from heart trouble after an illness of about two months. Altho not confined to her bed during that time her suffering was extremely severe altho she bore her pain bravely.

She was born on the Kneebone ranch at Spenceville, July 31, 1881 and has spent her life in this county.

She is survived by her husband, John Harry, a brother, Earl Nichol and two sisters, Mrs. Imogene Benjamin and Mrs. Marie Bell of Sacramento.

The funeral services will be held Sunday afternoon at 1:30 from the Holmes Funeral Home.

0

MRS. BUD WAYMAN PASSES IN OAKLAND

Mrs. Laura Wayman, wife of "Bud" Wayman of Pike passed away in Oakland where her loving daughter, Doris Nightengale had taken her in hopes that the lower altitude would prove beneficial to her health.

She was a native of Columbia Hill and most of her life was spent in Nevada and Yuba Counties.

She was laid to rest early this week at Latrobe, El Dorado County.

Besides her husband she leaves a son, Bruce, and two sisters, Mrs. J. Vanietti of Camino and Mrs. E. L. Hallowell of Hornbrook.

0

INDIAN SPRINGS RESIDENT DIES HERE WEDNESDAY

Ralph Tisher, a farmer of the Indian Springs district passed away at the Nevada City Sanitarium Wednesday evening. Heleavesa wife and several children.

Funeral services will be held at Indian Springs school house Friday afternoon and interment at Indian Springs cemetery. Holmes-Hooper Funeral Home has charge of arrangements. Grass Valley Odd Fellws and Rev. Buckner will conduct the services.

0

RELATIVE PASSES IN EAST ON JULY FIRST

Mrs. A. C. Larsen received word today that her sister's husband, Dr. Clarence B. Kenney, had passed away at his home in Winchendon, Mass, July 1st. He and Mrs. Kenny had made two trips to California some time ago visiting in Nevada City and Grass Valley. While on their way home Dr. Kenney attended the Shriners Convention which at that time was held in San Francisco He was one of the prominent physicians in Winchendon. Mrs. Jean C. Moore of Grass Valley is also a sister of Mrs. Kenney.

0

Miss Medeline Gibbons of Betty Jean Shoppe was a San Francisco visitor this week selecting stock to freshen her supply of feminine articleh. She also visited her Oroville shop.

MORE NEW HOMES FOR NEVADA CITY

Contractor Rude of Grass Valley has purchased a tract of land from Joe Lopez or Joe King, on the old Nevada City-Grass Valley road just back of the baseball park.

The work of clearning this property of young pine trees has started and shortly Mr. Rude will erect five new, modern cottages for rent.

This is welcome news to Nevada City as the house shortage has been acute for several months.

These houses will be neatly built with many built-in features and up-to-date fixtures.

Mr. and Mrs. Will Davis have completed three cottages on Mosquito Creek in Hideaway Park, near town. These cottages are modern in every respect complete with modern plumbing and electricity. They are attractively papered and painted and present a very attractive appearance

0

CHARLES RECTOR LINDLEY GRADUATES FROM U S C

Charles R. Lindley, native of Nevada City has successfully graduated from the University of Southern California at their forty eighth annual commencement exercises.

The young man graduated with honors in architecture his chosen course. He attended the local schools and has a wide circle of friends who will wish him well in his chosen life work.

Mr. Lindley is the son of the late I. C. Lindley and Mrs. Lindley.

0

TOURISTS TAKING ADVANTAGE OF GOOD CALIFORNIA ROADS

Automobles form eighteen states were checked in Grass Valley recently. The Tahoe Ukiah road is passable but rough and the road between Sierra City and Downieville is still closed during the week days for construction work. Undoubtedly traffic will be much heavier as these two roads will give fine travelling over wide smooth road beds.

California Fiesta Year celebrations are drawing large crowds of turists to this state.

NEVADA CITY THEATRE HAS SUCCESSFUL OPENING

The Nevada Theatre reopened last evening with alarge attendance and expressd thmselves as highly pleased with the appearance of the theatre and with the excellent acoustics which the remodeled theatre affords.

The lobby of the theatre was filled with baskets of beautiful flowers sent by friends and admirers of Manager Bill Tamblyn who wish him every success.

No effort or expense was spared in making the Nevada Theatre up to date in every respect.

The thratre opened with Eddie Cantor in "Whoopee".

The Nevada Theatre Company was organized in 1864 and the building erected then it was operated as a legitimate theatre as it was in the days before the "movies." The building has changed hands several times. before coming into the hands of the present owners.

0

RAY HAWKINS BUYS ALPHA STORE ALLEGHANY

Ray Hawkins, prominent business man of Alleghany has purchased the Alpha Mercantile Store in Alleghany. He has operated the store for the Alpha Company for about 10 years of the 17 years it has been established.

He is also postmaster of Alleghany, and has the best wishes of the community in which he resides as well as the many friends he has made in Sierra and Nevada counties
